

Family Model Boat Building at Underfall Yard

Sunday the 17th July

My Future My Choice, The Bristol Harbour Festival and Underfall Yard invite your family to a free workshop to build a large model boat from cardboard. The boats are fun to build and they show how boats are actually built at Underfall Yard.

This is a fun, relaxing day during the Harbour Festival Weekend. The activity engages adults and children working as a team. No special skills are needed ideally suits children from age 5 to 14 upwards but all ages (and family friends) are welcome.

The day starts with refreshments and an introduction at 10.30am. Free snacks and refreshments available through the day. We advise on bringing your own lunch. Boats will sail in the afternoon at about 3pm when the paint is dry. Invite your friends to see them sail outside the Cottage Pub.
