

## **Project Charter - SMRT, Bristol**

### **Year groups**

16-18 science, maths and IT

### **Engineers**

Richard Kan - EDF - nuclear decommissioning

Sarwat Baig - HP - artificial muscles, colour tablets

Anna Cuanalo - Uni Bristol - engineering students, robotics

### **School staff**

Phoebe Wales - SMRT

### **Project statement**

When the project is completed we will see an enthusiasm from A level science students that "engineering" is an exciting and viable study/career option. (And also some students applying to the Arkwright scholarship.)

### **Goal 1**

1 day "workshop" of activities based around engineering

### **Completion date**

July 2012

### **School setting leader**

Phoebe Wales

### **Goal 2**

Display summarising the work of engineers

### **Museum setting leader**

Anna Cuanalo

### **Supporting**

Anna Farthing

### **Quick wins**

TBC

### **Next steps**

research and design 1hr workshop activities - Richard, Sarwat and Anna

look into possible dates and pupils - Phoebe

research CRB element - Phoebe

musuem setting - Anna
